Introduction to Music Theory

This course begins by giving you an insight into where octaves come from. You will learn that musical notes, like all sounds, are made of evenly-spaced sound waves. You will study high and low frequencies, and learn that people have been making music and talking about music long before we knew that sounds were waves with frequencies. You will also learn that any note that is twice the frequency of another note is one octave higher.

Modules Studied

Module 1: Octaves and Intervals

Module 2: Augmented and Diminished Intervals

Module 3: Ear Training

Module 4: Triads

Module 5: Cadence

Module 6: Assessment
